Operating manual

Fiscal Printer Daisy FX 1300

- **Switch to autonomous mode**
  (Without PC management)

To work in autonomous mode, the fiscal printer has 3 function keys F C M. To switch the mode, via the ON / OFF switcher turn on the fiscal printer. A short voice signal will be heard and the diode will start flashing in red for 3-4 seconds. When the diode is flashing, press one of the buttons (F C M), after a long voice signal, a receipt with the inscription "Autonomous mode" will be printed out.

- **Definition of buttons**
